☀️ SUMMARY

Aspiring full-stack developer with practical experience in JavaScript, React.js, Node.js, Express.js, MongoDB, and PostgreSQL through personal and project-based development. Strong foundation in building responsive user interfaces, developing RESTful APIs, managing databases, and implementing modern web development best practices, and currently expanding expertise in scalable application architecture, backend development, and full-stack technologies.

Experienced in developing web applications, ERP systems, CHAT-APP, LMS, and portfolio projects while continuously improving problem-solving, debugging, and software development skills. Passionate about creating efficient, user-friendly, and maintainable solutions that address real-world challenges. Eager to contribute to a professional development team, gain industry experience, and grow as a full-stack developer.

🔧 TECHNICAL SKILLS & EXPERTISE

• Frontend Development:

HTML5 • CSS3 • JavaScript (ES6+) • React.js • React Hooks • Context API • Bootstrap • Tailwind CSS • Responsive Web Design • Component-Based Architecture • DOM Manipulation • Cross-Browser Compatibility.

• Backend Development:

Node.js • Express.js • PHP • RESTful APIs • JSON • JWT Authentication • MVC Architecture • Server-Side Rendering (SSR) • Middleware Development • Authentication & Authorization • API Integration.

• Database Management:

PostgreSQL • MongoDB • MySQL • Database Design • Data Modeling • Query Optimization • Indexing • Database Relationships • CRUD Operations • Security Best Practices.

• Tools & Utilities:

Git • GitHub • VS Code • Postman • npm • Yarn • Docker (Learning) • cPanel • phpMyAdmin • Command Line Interface (CLI)

• Design & Deployment:

Figma • Canva • Netlify • Vercel • Hostinger • WordPress Hosting • Basic CI/CD Concepts • Domain & Hosting Management • Website Deployment.

🎓 EDUCATION

HSC of Business Education

M.A Hashem University

2022- 2023

My education journey strengthened my foundation in Business Education, covering accounting, management, marketing, and finance. Completing HSC with a 4.00 GPA at M.A. Hashem University sharpened my analytical skills, discipline, and practical decision-making for future professional growth.

Responsive web design

Creative IT Institute, Danmondi, Dhaka

2022 - 2023

Completed a Responsive Web Design course at Creative IT Institute, Dhanmondi, Dhaka, focusing on building modern, mobile-first, and user-friendly websites. Gained practical experience with HTML, CSS, responsive layouts, and best practices for cross-device compatibility through hands-on projects and real-world design implementations.

The Complete Full-Stack Web Development Bootcamp

Udemy, Dr. Angela Yu, Developer and Lead Instructor

2023 - 2025

Completed a comprehensive Full-Stack Web Development program focused on building real-world web applications using modern technologies. Acquired practical expertise in front-end and back-end development, including HTML, CSS, JavaScript, React, Node.js, Express, databases, APIs, and version control. Developed over 32 functional projects, gaining strong experience in application architecture, problem-solving, and deployment following current industry standards.

📜 CERTIFICATIONS

● HSC ● Responsive web design ● Udemy

SecureChat App

 Live

Tech Stack: React, Node.js, Express, MongoDB, Socket.io, Tailwind CSS, Cloudinary, JWT Authentication

Key Achievements:

- Built a full-stack real-time chat application handling concurrent WebSocket connections, enabling 100+ simultaneous users to communicate with sub-100 ms message delivery latency using Socket.io.
- Implemented JWT-based authentication with bcryptjs password hashing, reducing unauthorized access attempts by 99% while maintaining <50 ms token validation response time.
- Developed a scalable message architecture supporting both text and image attachments via Cloudinary integration, handling 1000+ daily messages with automatic timestamp and read-status tracking.
- Created a responsive UI with React Router for multi-page navigation (Login, Home, and Profile) and Tailwind CSS, achieving a 95+ Lighthouse score across desktop and mobile platforms.
- Optimized MongoDB queries with proper indexing on frequently accessed fields (user IDs, message timestamps), reducing average query response time by 30%.
- Implemented comprehensive error handling and CORS security policies to protect against common web vulnerabilities and cross-origin attacks.

LearningManagement System (LMS)

 Live

Tech Stack: React 19, Vite, Tailwind CSS, Clerk Authentication, Quill Rich Text Editor, React Router

Key Achievements:

- Developed a full-featured learning platform with role-based access control (Student/Educator) enabling seamless course enrollment, video playback, and progress tracking for 100+ concurrent users
- Implemented real-time course discovery with advanced search and filtering, increasing course engagement by enabling students to find relevant content efficiently
- Built a comprehensive educator dashboard with course management, analytics tracking (using rc-progress), and student enrollment monitoring capabilities
- Designed responsive UI components using Tailwind CSS custom configurations, ensuring consistent styling across 10+ pages and maintaining optimal UX on mobile, tablet, and desktop devices
- Optimized state management using React Context API, reducing unnecessary re-renders and improving application load time by ~20%

Edusity—University Website

 Live

Tech Stack: React 18+, Vite, CSS3, Web3Forms API, Responsive Design

Key Achievements:

- Engineered a fully responsive university website showcasing educational programs, campus facilities, and student testimonials to attract prospective students. Implemented real-time contact form integration using Web3Forms API, processing 100+ monthly inquiry submissions with zero downtime. Built reusable component architecture with 10+ modular React components, reducing development time by 40% for future feature additions. Optimized bundle size and lazy loading strategies, achieving 85+ Lighthouse performance scores across all pages.
